

L'Université de Montréal et de votre carrière.

Université de Montréal has more than 10,000 employees and is one of Canada's Top 100 Employers.

UdeM has Canada's 2nd largest student body and ranks among the top five Canadian universities in research, receiving more than half a billion dollars in research funding every year.

Through the achievements of the members of its community, UdeM participates in building today's and tomorrow's world.

Full Professor

Department of Medicine, Faculty of Medicine

The Department of Medicine of the Faculty of Medicine of the University of Montreal seeks to recruit a Full Professor with an established research program in the field of pancreatic beta-cell biology and the pathophysiology of type 2 diabetes. Candidates are expected to have a strong independent program financed by major granting agencies and international recognition. The Professor will establish his or her laboratory at the [Centre de recherche du Centre Hospitalier de l'Université de Montréal](#) (CRCHUM) within its Cardiometabolic axis, in collaboration with several basic and clinical investigators.

As a professor, you will contribute to the excellence of the CRCHUM and the Department of Medicine:

Through your research and teaching activities, you will ensure the visibility of your discipline in addition to actively participating in the operation of a renowned institution. As such, you will:

- » Develop a competitive research program in pancreatic beta-cell biology and the pathophysiology of type 2 diabetes;
- » Strengthen the critical mass of CRCHUM scientists in this area of research;
- » Contribute to the scientific life of the Cardiometabolic axis of the CRCHUM
- » Supervise the training of graduate students enrolled in University of Montreal programs as well as postdoctoral fellows.

To succeed in this role, you will need:

- » The candidate needs to hold a PhD in a discipline related to metabolism (or equivalent) and demonstrate significant experience at the post-doctoral level in the field of pancreatic beta-cell biology ;
- » An established research program and an excellent publication track-record in the fields of pancreatic beta-cell biology;
- » At least 15 years of experience in academic research within recognized institutions;
- » To currently hold research grants as the Principal Investigator;

- » An adequate knowledge of the French written and spoken language **or** a strong commitment to mastering the proficiency level required, in accordance to [Université de Montréal's Language Policy](#).

How to submit your application

We invite you to submit a letter outlining your interests and career goals, your resume, a copy of your diplomas, and three letters of recommendation to:

Dr François Madore

Faculté de médecine, Département de médecine, UdeM

Courriel : f.madore@umontreal.ca
