

L'Université de Montréal et de votre carrière.

Deeply rooted in Montreal and dedicated to its international mission, Université de Montréal is one of Canada's Top 100 Employers. Like the city whose name it bears, it is effervescent and multicultural.

UdeM attracts over \$500 million in research funding every year, making it one of the top three university research hubs in Canada. It also ranks among the top 100 universities worldwide and among the five best French language universities.

Through the achievements of the members of its community, UdeM participates in building today's and tomorrow's world.

Associate or full professor

Department of Pathology and Cellular Biology, Faculty of Medicine

The Department of Pathology and Cell Biology of the Université de Montréal invites applications for a tenure track faculty position at the Associate or Full Professor level. We are seeking an innovative, dynamic, and collaborative individual who has already established an international profile of research achievements in the field of the developmental origins of health and disease. This includes, but is not limited to the impact of environmental and lifestyle factors upon the offspring including its adult health, and how these impacts can be transferred epigenetically across generations, in particular through the male germline. It is envisaged that the successful individual will run a translational research programme that might include animal models and human samples, and employ cutting edge omics approaches.

The Department of Pathology and Cell Biology of the Faculty of Medicine is a hybrid fundamental-clinical department comprising some 20 fundamental researchers and over 50 clinical professors. We are particularly interested in attracting colleagues who share our commitment to teaching, mentoring, and fostering a collaborative environment that embraces both excellence and diversity. The successful candidate will establish their lab at the Centre Hospitalier de L'université de Montréal (CHUM)research center.

The City of Montreal is a rich environment for sciences and post-secondary education. It also offers a lively multicultural environment with a high standard of living. It has repeatedly ranked amongst the top cities worldwide for the quality of life. The Université de Montréal is a leading French-speaking University. It is expected that the successful candidate will either already speak French, or show a strong commitment to learning French, in which case extensive appropriate tutoring will be offered. The candidate will have exceptional opportunities to collaborate with high caliber scientists on campus and in our affiliated institutes, including basic scientists in the Faculty of Medicine and the Faculty of Arts and Sciences.

As a professor, you will have the opportunity to contribute to the excellence of the Faculty of Medicine and Department of Pathology and Cellular Biology

Through your teaching and your research activities. You will also ensure the visibility of your discipline in addition to actively participate in the operation of a renowned institution. As such, you will:

- » Obtain independent funding from federal granting agencies and maintain an already-active active research program;
- » Contribute to the department's teaching mission at both the undergraduate and graduate levels;
- » Supervise graduate students;
- » Develop interactions with members of the Department of Pathology and Cell Biology, and members of CRCHUM
- » Contribute to the academic life of the Faculty of Medicine/Department of Pathology and Cell Biology.

To succeed in this role, you'll need:

- » Hold a PhD in a relevant field of study and demonstrate significant experience and productivity at the assistant/associate professor in the field of the Developmental Origins of Health and Disease;
- » Have a demonstrated international profile in this field;
- » Have the ability and great interest to work in a team environment;
- » Have an adequate knowledge of the French written and spoken language **or** a strong commitment to mastering the proficiency level required, in accordance to [Université de Montréal's Language Policy](#). An institutional learning support program is offered to all professors to learn French or improve their communication skills.

How to submit your application

We invite you to submit a cover letter outlining your interests and career goals, a curriculum vitae, a three-page summary of current and proposed research as well as copies of three relevant publications. Name and contact information for three references are also required. Your application must be emailed to peggy.lareau@umontreal.ca and be addressed to:

Salary	Université de Montréal offers competitive salaries and a full range of benefits
Starting date	As of July 1 st , 2022

DIVERSITY AND INCLUSION

Université de Montréal is strongly committed to fostering [diversity and inclusion](#). Through its *Equal Access Employment Program (EAEP)*, UdeM invites applications from women, Aboriginal people, visible and ethnic minorities, as well as persons with disabilities. We will –confidentially – adapt our recruitment mechanisms to the specific needs of people with disabilities who request it.

UdeM embraces a broad and inclusive definition of diversity that goes beyond applicable laws, and therefore encourages all qualified individuals to apply, regardless of their characteristics. However, in accordance with Canadian immigration requirements, priority will be given to Canadians and permanent residents.

In order to measure the impact of its equity, diversity and inclusion actions, UdeM is collecting data on applicants identifying themselves with one of the groups targeted by the Equal Employment Opportunity Act, namely women, Aboriginal people, visible minorities, ethnic minorities and people with limitations. To this end, we thank you for completing [this self-identification questionnaire](#). The information you provide through this form is **strictly confidential** and will be shared only with those responsible for the UdeM EAEP. If you wish, you may also indicate that you belong to one of the targeted groups in your cover letter, which will be reviewed by the selection committee and the assembly of peers.

Université de Montréal's application process allows all members of the Professor's Assembly to review the application files submitted. If you wish to keep your application confidential until the shortlist is established, please mention it in your application.
