Position for master's degree (M.Sc.), doctoral (Ph.D.) and postdoctoral fellow positions

Site: Centre de recherche du CHUM (CRCHUM)

Lab: Youth Mental Health and Technology Lab (Shalini Lal, PhD, MSc, BScOT (Reg. QC), Canada Research Chair in Innovation and Technology for Youth Mental Health Services and Associate Professor in the School of Rehabilitation, Faculty of Medicine, University of Montreal)

Web site: https://www.ymhtech.com/

Research themes: Well-being and mental health of adolescents and young adults, e-health, healthcare and services access, psychosocial rehabilitation

General description: Our mission is to advance research on the mental health, well-being, and resilience of adolescents and young adults, their access to services, and the role and impact of innovations and technology in mental health care for youth (adolescents and young adults). Our work is guided by person-centered, collaborative, and participatory approaches using qualitative, quantitative, and arts-based methods in collaboration with youth, families, service providers, the community, and other key stakeholder groups. The student or postdoctoral fellow will be mentored to develop their research skills, professional experience, and knowledge on topics related to the lab’s research.

*Although Université de Montréal is a French-language university, our research program is open to creating a bilingual environment for students in graduate-level programs. Students who are proficient in English are therefore welcome!!! Theses can be written in English.

Mains themes /disciplines: Occupational therapy, psychology, public health, physiotherapy or other disciplines related to the lab’s research axes

Program of training: Rehabilitation sciences

Qualifications:

Master's level (M.Sc.) Qualifications
- Professional master's or bachelor's degree in a health-related field (or in the process of obtaining one)
- Excellent academic record
- Previous experience in research or in the health field is an asset

Doctoral level (Ph.D.) Qualifications
- Hold a master's degree (or be in the process of obtaining one) in a health-related field
- Excellent academic record
- Professional experience in the research (e.g., research assistant, research coordinator)
- Analytical and statistical skills as well as research methods (qualitative, quantitative and mixed methods)

Postdoctoral level (postdoc) Qualifications
- Hold a doctoral degree (or be in the process of obtaining one) in a health-related field
- Relevant experience in health care services research, digital health, youth mental health, or other related field
- Excellent analytical skills and knowledge of research methods (qualitative, quantitative, and mixed methods)
- Experience in database management and operations
- Knowledge of EndNote, REDCap, SPSS, Atlas.ti, Covidence, etc.

Application deadline: Ideally by April 25, 2022. Applicants are welcome to express interest after this date, however positions will only remain open until filled. Start date: September 2022 or January 2023 (flexible)

Scholarship: Financial support from Dr. Shalini Lal’s research funds, institutional or external awards, or academic assignments (e.g., teaching assistantships) will be provided for a minimum amount of: $20,000/year (M.Sc.); $22,000/year (Ph.D.); $36,000/year (postdoc).

Procedure: Interested students should send a cover letter, updated resume, and a copy of their university transcripts as soon as possible to shalini.lal@umontreal.ca
